

Trying Privilege Authority Professional

Privilege Authority 2.0 is available in 2 editions: *Privilege Authority Community Edition* and *Privilege Authority Professional*.

Privilege Authority Community Edition is absolutely free, but in comparison with Privilege Authority Professional, it lacks the following features:

- Group Policy Object (GPO) rules can be based on digital certificates;
- GPO rules can be based on the computer operating system version or operating system class – server or workstation;
- GPO rules can be based on a computer name, computer group or organizational unit, computer IP address range (IPv4/IPv6), or certain registry key or file;
- full technical support.

Privilege Authority Professional must be purchased but has a 30-day trial period.

Following the common PA 2.0 setup, the customer has access to the Community Edition only. To start trying Privilege Authority Professional, please register:

Note:

Internet connection is required to perform registration.

1. On the PA Server, go **Start > All Programs > ScriptLogic Corporation > Privilege Authority > Privilege Authority** (or, use the **Privilege Authority**  shortcut icon of the **Start** menu).
2. Click the **Try PA Pro!** button in the left-hand tree pane.
Or, click **Help > Begin Evaluation of Pro** (see Figure 1).

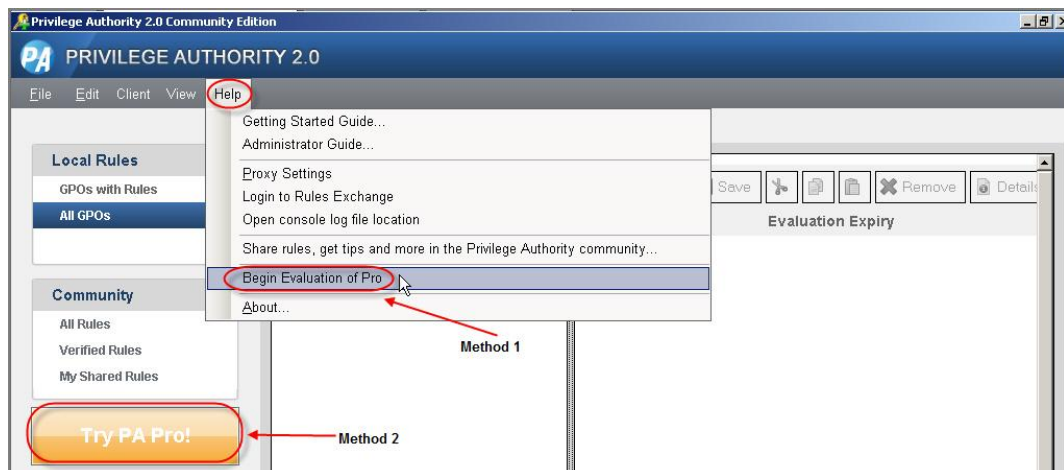

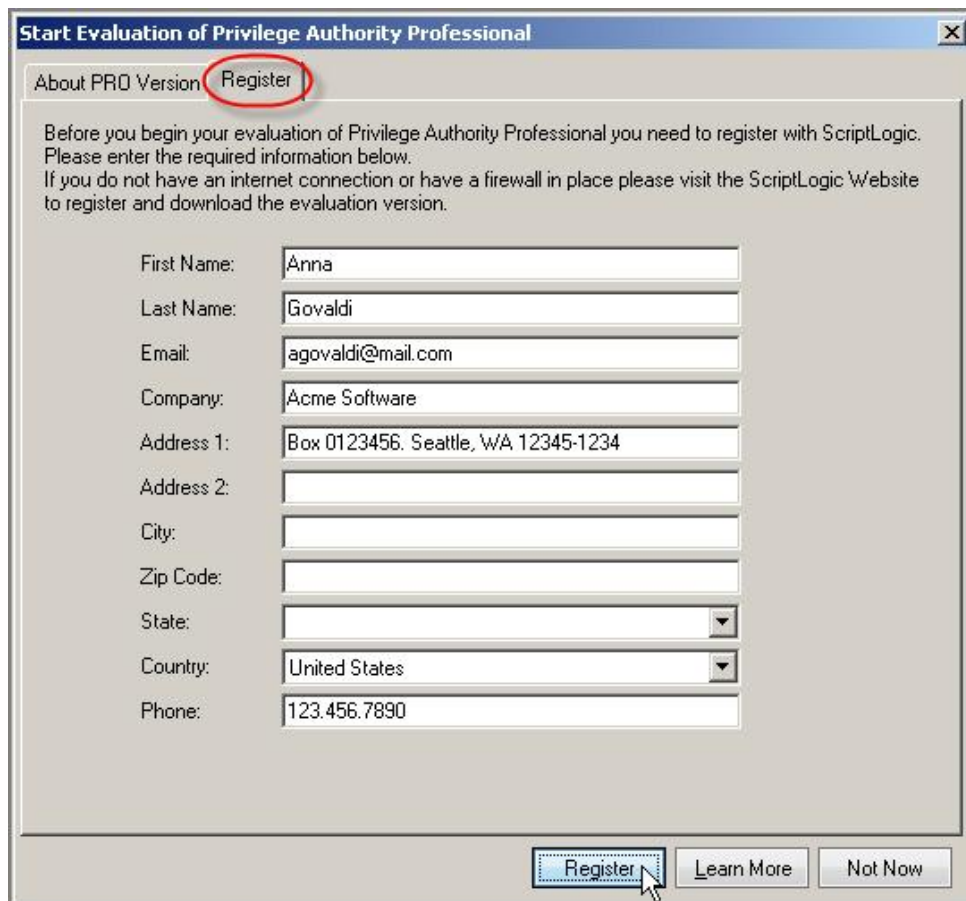

Figure 1. Choosing to use PA Professional in trial mode.

3. On the two-tabbed screen that will show, click the **Try PA Pro!** button, or switch to the **Register** tab.
4. Provide some information about yourself by filling in the form that will be presented. (The obligatory fields as shown in Figure 2.) Click **Register**.

The image shows a registration window titled "Start Evaluation of Privilege Authority Professional". It has two tabs: "About PRO Version" and "Register", with the "Register" tab selected and circled in red. The text inside the window says: "Before you begin your evaluation of Privilege Authority Professional you need to register with ScriptLogic. Please enter the required information below. If you do not have an internet connection or have a firewall in place please visit the ScriptLogic Website to register and download the evaluation version." Below this text are several input fields for registration information: First Name (Anna), Last Name (Govaldi), Email (agovaldi@mail.com), Company (Acme Software), Address 1 (Box 0123456, Seattle, WA 12345-1234), Address 2, City, Zip Code, State (a dropdown menu), Country (United States, a dropdown menu), and Phone (123.456.7890). At the bottom right, there are three buttons: "Register" (highlighted with a dashed border and a mouse cursor), "Learn More", and "Not Now".

Figure 2. Registering for Privilege Authority Professional.

5. The notification will show to inform you that the rules containing features of Privilege Authority 2.0 Professional will stop working on the client machine(s) in 30 days after starting the evaluation.

Note

If you fail registering due to any connection problems, you can download the package on your own from the [ScriptLogic](#) website.

6. Click **OK** within the notification window and the Privilege Authority Console name will change to **Privilege Authority 2.0 Professional Evaluation**. (See Figure 3.)

Now you have access to all Privilege Authority Professional features for the 30-day trial period.

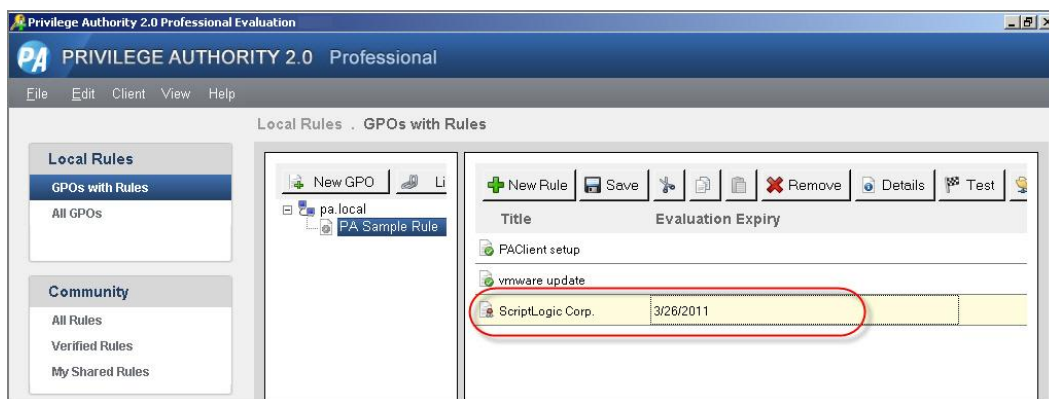

Figure 3. This rule is based on a digital certificate - the Privilege Authority Professional Evaluation feature – and it will be applied until the day specified.
